

Coverage Resource for Personal Data Breach Recovery Cost

As an adjunct of your policy with Colorado Special Districts Property and Liability Pool (CSD P&L Pool), your district now has access to the CSD P&L Pool **eRisk Hub**TM, powered by NetDiligence[®].

The eRisk Hub is a private web-based portal containing information and technical resources that can assist you in the prevention of network, cyber and privacy losses and support you in the timely reporting and recovery of losses if an incident occurs.

The eRisk Hub portal is an internet-based service that features news, content and services from leading practitioners in risk management, computer forensics, forensic accounting, crisis communications, legal counsel, and other highly-specialized segments of cyber risk.

Please note the following:

1. The CSD P&L Pool eRisk Hub portal is a private site for CSD P&L Pool members only. Do not share portal access instructions with anyone outside your organization. You are responsible for maintaining the confidentiality of the CSD P&L Pool **Access Code** provided to you.
2. Up to three individuals from your organization may register and use the portal. Ideal candidates include your company's Risk Manager, Compliance Manager, Privacy Officer, IT Operations Manager or Legal Counsel.
3. This portal contains a directory of experienced providers of cyber risk management and breach recovery services. CSD P&L Pool does not endorse these companies or their respective services. Before you engage any of these companies, we urge you to conduct your own due diligence to ensure the companies and their services meet your needs. Unless otherwise indicated or approved, payment for services provided by these companies is your responsibility.
4. Should you experience a data breach event, you may choose to call the Incident HELP Hotline listed in the portal for immediate triage assistance. Your initial call of up to one hour is free of charge. Additional support is billable to you at the rate of \$200 per hour. Please be aware that the hotline service is provided by a third-party network security company. Therefore, calling the hotline does NOT satisfy the claim notification requirements of your policy.
